Protect
from Sharp
Objects

DURING

4. **DISPLACE EXCESS WATER** | Remove lid and gently push down on G-Bag to remove excess water
5. **COUPLERS** | Undo clips and gently slide away from G-Bag
6. **G-Bag INLET & OUTLET** | Wipe inside of G-Bag inlet & outlet pipe ensuring a secure fit for the stoppers.
7. **STOPPERS** | Insert to seal the G-Bag to avoiding spillage during removal
8. **G-Bag** | Remove for secure storage and disposal
9. **REPLACE G-Bag** | Fit new G-Bag and reconnect the rubber coupler (Don't over tighten clips)

AFTER

10. **REFILL G-Bag** | Run the tap to restore water level
11. **CHECK** | Water is running freely to expand the G-Bag to fill casing
12. **REPLACE LID** | To protect the G-Bag
